

DHARANISRI RAMAN

CLOUD & DEVOPS ENGINEER

dharanisri1642004@gmail.com | 9363285352 | [linkedin.com/in/dharanisri55](https://www.linkedin.com/in/dharanisri55) | PalliPalayam, Tamil Nadu

SUMMARY

AWS Cloud and DevOps professional with hands-on expertise in cloud infrastructure design, CI/CD pipeline implementation, and end-to-end DevOps automation. Skilled in AWS services including EC2, S3, VPC, IAM, and ECS, along with Microsoft Azure cloud environments. Proficient in containerization using Docker and Kubernetes, IaC using Terraform and Ansible, and scripting using Shell and Python. Focused on delivering reliable, cost-efficient cloud solutions and driving operational excellence.

TECHNICAL SKILLS

- Operating System : **Linux (Ubuntu, Cent OS, Amazon Linux), Windows Server**
- Infrastructure & Configuration : **Ansible, Terraform, Cloud Formation, AWS CDK, Azure Resource Manager (ARM)**
- CI/CD : **Jenkins, GitHub Actions**
- Containerization : **Docker, Kubernetes, Amazon ECS, ECS Fargate, Azure Kubernetes Service (AKS)**
- Source Code Management : **Git, Github**
- Build Tools : **Maven**
- Web & Application Servers : **Apache, Tomcat**
- Databases : **RDS, MySQL, DynamoDB**
- Code Quality & Testing : **SonarQube**
- Security : **IAM, ACM, Azure RBAC, Key Vault, NSG, Azure Firewall**
- Monitoring & Logging : **AppDynamics, AWS CloudWatch, Azure Monitor, Log Analytics**
- Project Management : **JIRA**
- Scripting & Programming : **Shell Scripting, Python, TypeScript, Java**
- Repository Tools : **Nexus Artifactory, Docker Hub, Github, ECR, Azure Container Registry (ACR)**

INTERNSHIP EXPERIENCE

Cloud & DevOps Engineer Intern – Internseli Technologies

2024 – 2025

- Gained hands-on experience in AWS and Azure cloud infrastructure, CI/CD pipelines using Jenkins, Docker, and Kubernetes orchestration
- Implemented IaC using Terraform and CloudFormation; developed Shell and Python automation scripts for deployment and monitoring tasks

CERTIFICATIONS & TRAINING

Cloud DevOps Course – Greens Technology

Hands-on training covering AWS Cloud, Azure, Jenkins, Docker, Kubernetes, Terraform, Ansible, CI/CD pipeline design, scripting, and cloud monitoring.

PROJECT HANDLED

- **AWS Cloud DevOps Implementation** *FinEdge Labs – FinTech*
- **AWS Cloud DevOps Deployment** *MedNova Systems – Healthcare*
- **Design and Implementation of a Secure Azure Cloud Environment** *Azure Security Project*

EDUCATION

B.TECH – INFORMATION TECHNOLOGY

2021 – 2025

Sri Shanmugha College of Engineering and Technology, PulliPalayam

HSC (Class XII)

Krishnaveni Government Girls Higher Secondary School, PalliPalayam

SSLC (Class X)

Krishnaveni Government Girls Higher Secondary School, PalliPalayam
